**for DAVID HICKS**

**ON THE OPENING OF PARLIAMENT**

## **Australian Parliament Must Secure David Hick's Repatriation**

Supporters and campaigners for justice for David Hicks demand that the Australian Parliament rejects the kangaroo military commission set up by the Pentagon and seek his immediate release and repatriation.

**Bring David Home** campaigners will converge on the federal Parliament for its opening Tuesday 6 February 2007. Our aim is to make justice for David Hicks the number one issue on the national political agenda.

From 11 am elected representatives will be invited to address the crowd outside the Parliament and say how they stand. After the Parliament assembles the campaigners will take their demands to the US Embassy.

Alexander Downer and John Howard may prefer to believe reports from 'anonymous' sources on the well being of David; in the legality of the US Military Commissions; and in 'weapons of mass destruction'.

Most Australians do not. They know David Hicks is an Australian citizen abandoned by his government, languishing in Guantanamo victim of the Howard government's slavish following of the Bush Administration.

Be there if you care.
