Civil Liberties Australia chief executive Bill Rowlings said compulsory masks were justified on health grounds given the pandemic was killing people around the world but there should be "ready availability of publicly paid masks so that not being able to afford it or forgetfulness is not an excuse."

EMAILED REACTION

(Email below received 03 January 2021 by Civil Liberties Australia)

Bill Rowlings,

You are a disgrace and you do NOT stand for human rights at all, agreeing to the absolute travesty of endorsing face masks. OMG we are doing this for 7 new cases and 1 death ??

Bill Rowlings you belong in prison for your betrayal of your fellow citizens and that you do not stand for civil liberties at all. The same that is going to happen to all the Govt tyrants on their power trip. You are all finished. This is an insane communist Marxist cult. What's more contagious than a cold virus? Hysteria and insanity and mass psychopathic power trips.

The wearing of face masks is a health hazard. Every area on the planet that has enforced mask wearing has increased so called covid cases...

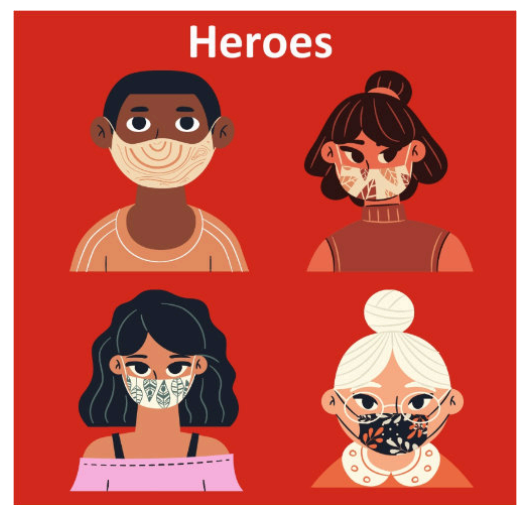

...

We're gonna ship you all to China where you scum communist Marxist cultists belong. And that's where they'll disappear you all and kill you. God's revenge is coming for all you satanists and haters of freedom.

Covid is a hoax and a political tool against humanity. You're going down with the all of us.
